- 5 2. Mr. I. A. Oyekola
- 6 3. Mr. Eyitayo J. Oyeyipo
- 7 4. Dr. Mrs. Ake M. B.
- 8 5. Mr. Owolabi Sola E.
- 9 6. Dr. C. O. Igbolekwu
- 10 7. Mrs. Ngozi Osueke
- 11 8. Dr. Mrs. Dada F. E.
- 12 9. Mr. Ahmed A. V.
- 13 10. Dr. F. F. Asamu

14 **OPENING PRAYER**

15 The meeting commenced at 10.09am and the opening prayer was given by Mr. Sola E. Owolabi

16 **DELIBERATIONS**

17 The aim of ‘reduced inequality’ was emphasised again by the coordinator: ‘How we could  
18 reduce inequality indeed’.

19 Dr. Bamidele Rasak emphasised the need to reduce poverty. By so doing, we will be reducing  
20 inequality

21 The vulnerable group were identified to be Women, Children, Elderly or Older People,  
22 Disabled, Rural dwellers, Slum dwellers, Divorced people, People in developing countries,  
23 and Southern regions.

24 How to populate that stand was considered vitally important. What to populate that stand  
25 with should be part of our major concern. Poverty, Unemployment, among others.

26 **Our key tasks:**

27 ***Policies.*** Coming up with policies that will reduce inequalities

28 ***Concrete acts*** that can help to reduce inequality. Bringing ideas on how to reduce inequality.

29 ***Writings.*** Write research papers that will help in reducing inequalities.

30 These can be summarised into: **Entrepreneurial programmes** and **research works** that will  
31 help in reducing inequalities.

32 Mr. Owolabi called these Academic responsibility and Community development. We have  
33 the artisans and the unemployed. Also, through skill acquisition programmes, we can take  
34 pictures from there.

35 Dr. Asamu identified areas of inequalities to include economic inequality, social inequality  
36 and ecological inequality.

37 **SUB-GROUPS**

38 The group was divided into three groups saddled with the responsibilities of coming up with  
39 ideas that will address two major areas already identified: Entrepreneurial programmes and  
40 research works. Members of the three sub-groups include:

41

42 **Group One**

43 Mr. S. E. Owolabi

44 Dr. F. F. Asamu

45 Mrs. Dada

46 **Group Two**

95 **OPENING PRAYER**

96 The meeting commenced at 10.08am and the opening prayer was said by Mr. Ahmed.

97 **INTRODUCTION OF NEW MEMBERS**

98 One new member introduced himself:

- 99 1. Dr. Peter Ogunlade

100 **READING OF LAST MINUTES**

101 The Secretary read the Minutes of the last meeting held on the 28th July, 2020.

102 **ADOPTION OF LAST MINUTES**

103 Dr. Rasak moved the motion for the adoption of last Minutes and seconded by Mr. Ahmed  
104 subject to minor corrections.

105 **MATTERS ARISING**

106 The first matter arising from the last Minutes concerns members who Have not been attending  
107 meetings. Despite series of meetings, it was discovered that there are still two people (out of  
108 the list of members sent from LUCRID) who have never attended the meeting. Group members  
109 who might meet those people were therefore enjoined to invite them for our meetings.

110 The second matter arising was on how to populate our stand. The coordinator emphasised the  
111 need for more ideas on how to populate our stand because only infinitesimal number had  
112 responded to the call.

113 It was also noted that our social media platform is too silent. It was noted that it seemed only  
114 one person sends messages. The coordinator solicited for our participation by commenting on  
115 any messages that are sent or at least send relevant messages that portray inequalities.

116

117

118 **AGENDA**

119 The coordinator solicited for reports from both the research groups and group committee that  
120 were formed. Reports from research subgroups were first received before that of the  
121 entrepreneurial activities.

122 **Research subgroups**

123 Only one group was able to present its proposal, and other two groups assured that their  
124 proposals would be presented in the next meeting. The coordinator commended members of  
125 the group that presented and encouraged other group members to borrow a leaf from them and  
126 follow suit in next meeting (that will be held in two weeks' time).

127 The coordinator went on to suggest that more topics should be worked upon and presented by  
128 each group to accommodate more topics for all four members. However, some others stated  
129 that whatever each group decides should be the final. Due to contrary opinion, the group agreed  
130 that each research group should work only on the accepted topics and such topics should be  
131 ready for presentation in the next meeting. In other words, each research group should continue  
132 to work on their proposals (based on the accepted topics) and they are expected to present them  
133 on the 3rd September, 2020.

134 **Subgroups on entrepreneurial activities**

135 Mr. Oyeyipo represented the Awareness Committee and stated that there will be need to first  
136 ask people about their views or perspectives of the concept of inequality. This will be achieved  
137 by visiting people in their shops, *et cetera*. It was further suggested that posters can be placed  
138 in strategic places to create awareness on inequality.

139 The Education Committee, represented by Mr. Oyekola and Mr. Adebisi, stated that the group  
140 aimed at focusing on secondary school students and teach them on how they can bridge  
141 inequality gap. The group also proposed a shot clip or documentary that will preach 'leave no  
142 one behind' and begins to disseminate such knowledge through social media. The coordinator  
143 suggested that the group document these ideas such that it will get to the point of being  
144 executed.

145 The Skill Acquisition Committee stated that they could not meet as a result of other cogent  
146 meetings. The coordinator encouraged the subgroup members to prepare adequately against  
147 next meeting.

148 **AOB**

149 The coordinator anticipated that our group might be called to have a virtual presentation to the  
150 University community. A member also confirmed this trend that every webinar is connected to  
151 at least three SDGs.

152 For those that are not in any subgroup or committee, it was resolved that they should meet with  
153 the Secretary to see which group will fit them more.

154 The coordinator appreciated everyone for making it to this meeting and encouraged everyone  
155 to get to work.

156 It was suggested that the next meeting will come up next two weeks, Thursday, 3rd September,  
157 2020.

158 **MOTION FOR ADJOURNMENT**

159 Dr Adama moved the motion for adjournment while Dr. Olisa seconded the motion.

180 **OPENING PRAYER**

181 The meeting commenced at 2.14pm and the opening prayer was said by Dr. Mrs. Ake.

182 **INTRODUCTION OF NEW MEMBERS**

183 The following new members were introduced:

- 184 3. Dr. Arisukwu Ogadimma
- 185 4. Mr. Oye Olubukoye

186 **READING OF LAST MINUTES**

187 The Secretary read the Minutes of the last meeting held on the 20th August, 2020.

188 **ADOPTION OF LAST MINUTES**

189 Dr. Rasak moved the motion for the adoption of last Minutes and seconded by Mr. Oyeyipo  
190 subject to minor corrections.

191 **MATTERS ARISING**

192 The first matter arising was how to populate our stand as it was still an issue that all of us need  
193 to take very seriously. The coordinator therefore solicited for members' support to achieve this  
194 goal.

195 **AGENDA**

196 The first was on Grant that was sent to us by the Director, Landmark University Centre for  
197 Research, Innovation and Discovery (DLUCRID). The coordinator identified Gupta as a  
198 promising grant but discovered that it wasn't meant for academic but majorly for NGOs.  
199 Another grant was also deliberated upon and it was noted that all of us were qualified for the  
200 grant.

201 Next on the agenda was research subgroups, and the coordinator requested the groups,  
202 especially those who had not made their presentations, to present their proposals. The research

203 group two first made her presentation on ‘Coping strategies of street beggars during covid-19  
204 total lockdown in some selected states in North-Central Nigeria’ and constructive criticisms  
205 were received. Suggestions on how to improve the quality of the proposal were also received.  
206 Afterward, research group three presented her proposal on ‘Parental involvement and students’  
207 perceptions of teachers as determinants of academic achievement among senior secondary  
208 school. Students in selected local government areas in Kwara State’. Constructive criticisms  
209 were provided for quality improvement. Finally, the coordinator appreciated everyone for  
210 ensuring that their proposals were ready.

211 On the possibility of receiving aid from the LUCRID to conduct our research, the group agreed  
212 that we should be ready on our own part to collect data using our resources and then hope that  
213 the school will pay for it. On the meantime, we should submit our proposals to LUCRID as a  
214 way that we are working. Consequently, issues on how to finance data collection was raised  
215 and whether we should make collective contribution or individual contribution (base on  
216 subgroups) was deliberated. It was resolved that collective contribution should be made. Base  
217 on this, each subgroup was encouraged to bring considerate cost analysis in next meeting.

218 Considering the increasing number of members, another group was created with the aim of  
219 ensuring more commitment on the part of everyone. The new group members include Dr.  
220 Ogunlade, Dr. Arisukwu, and Mr. Olubukoye.

221 A suggestion was raised whether to relax committee’s responsibilities in order to focus more  
222 on research proposals. However, it was considered imperative to drive all agendas  
223 simultaneously: Publications, community service and population of stand.

224 On reports from the three committees, Awareness Committee promised to make their  
225 presentations. Members of Skill Acquisition Committee estimated their cost to be ₦50,000.  
226 Also, Education Committee presented a cost estimate of ₦50,000 (for editing) with a proposal  
227 of making a short clip that will be made available to students on YouTube platform, *et cetera*.  
228 However, the group noted that if someone can help in editing this, there would be no need of  
229 cost implication.

### 230 **AOB**

231 Item 7 was suggested and the Coordinator made provision for it. In addition, the Coordinator  
232 appreciated everyone for making it to the meeting.

### 233 **MOTION FOR ADJOURNMENT**

234 Mr. Olubukoye moved the motion for adjournment while Mr. Owolabi seconded the motion.

### 235 **CLOSING**

236 The closing prayer was said by Mr. Olubukoye and the meeting ended at 3.55pm

268 **OPENING PRAYER**

269 The meeting commenced at 2.20pm and the opening prayer was said by Dr. Ogunlade.

270 **READING OF LAST MINUTES**

271 The Secretary read the Minutes of the last meeting held on the 3rd September, 2020.

272 **ADOPTION OF LAST MINUTES**

273 Mr. Oyeyipo moved the motion for the adoption of last Minutes and seconded by Dr.  
274 Ogadimma subject to minor corrections.

275 **MATTERS ARISING**

276 The first matter was still on how to populate our stand.

277 The second was on grant. The coordinator took the pain to visit DLUCRID and Dr. Dunsu for  
278 clarification on already sent grant and they replied that we would be intimated on suitable grant.

279 Reports from subgroups and committees was another mater arising from the meeting. The  
280 coordinator first appreciated every Group and Committee for their efforts so far. Dr. Ogunlade  
281 was informed about his admission to newly created group (4).

282 The first group made her presentation by proxy. According to the group, 200 copies of a  
283 questionnaire will amount to 4,000. Also, Transportation will cost 6,000 making a total of  
284 10,000. The cost of

285 Group two proposed the printing of 2 pages of a questionnaire, to be administered to 400  
286 respondents amounting to ₦3000. Tonner for ₦1500. Transport will cost ₦2000. Total is  
287 ₦6,500. Also, 200 will be giving to 30 participants bringing it to ₦6,000. The grand total cost  
288 of data collection will be ₦12,500. Transportation was changed to be ₦4,000. Totalling 14,500

289 Subgroup three proposed of going to five different places and the cost of transportation is  
290 ₦20,000. Research assistant in each location to be visited will collect ₦2,000 for 5 people  
291 totalling ₦10,000. For the questionnaire, ₦3,600 will go for two realms of papers and the  
292 printing will cost ₦2,500. Miscellaneous expenses is taken to be ₦4,000. Coding and analysis  
293 will be ₦25,000. The grand total is 65,100. The total cost was however reduced to ₦17,000.  
294 The cost from group three raised many issues which brought about some many other  
295 resolutions.

296 Group four stated that topic is still being deliberated in the area of unequal access to  
297 government job, how people get government job and the second area is access to justice.

298 The three committees were requested to present their reports. The awareness committee  
299 brought a proposal to produce Bill board and flyers of A5 size which will cost ₦6,500 for 100  
300 copies. The bill board will collect 14,000 for printing and welding of iron is 30,000. The cost  
301 transportation is 5000. The subgroup said they will go to town the following day and bring  
302 reports of whatever they get from community members. That will determine what will be  
303 written on the billboard. It was suggested that the committee should do the needful and follow  
304 due protocol.

305 Education committee had already presented her proposal which was estimated for ₦50,000.

306 The skill acquisition committee presented her budget by proxy. Ingredients cost 10,000.  
307 Facilitator 10,000. Refreshment 20000 for 100 people. Totally ₦40,000.

308 The coordinator encouraged all subgroups to submit their proposals in black and white latest  
309 Monday, 17th September, 2020.

310 The coordinator divided the total cost of research proposal (₦41,500) among active members  
311 (those whose name will appear on the paper) and each member is expected to pay 2600 to be  
312 paid latest month end. In the meantime, group four is expected to present their proposal so as  
313 to add it up to already presented proposals.

#### 314 **MOTION FOR ADJOURNMENT**

346 **OPENING PRAYER**

347 The meeting commenced at 9.09am and the opening prayer was said by Dr. Ogadimma.

348 **INTRODUCTION OF NEW MEMBERS**

349 The following new members were introduced:

350 Mr. Eseyin Oluwasegun

351 Mr. Ogunjobi J. O.

352 **READING OF LAST MINUTES**

353 The Secretary read the Minutes of the last meeting held on the 17th September, 2020.

354 **ADOPTION OF LAST MINUTES**

355 No adoption because there was no network to download minutes for thorough check.

356 **MATTERS ARISING**

357 The coordinator stated that the proposals presented in our last meetings have been submitted  
358 to LUCRID.

359 Only sub-group four proposal has not been submitted to LUCRID because they are yet to  
360 submit to the Group.

361 Concerning the update on payment of data collection, the Financial Manager stated that 13  
362 people have paid while only three people are yet to make their payments. The coordinator went  
363 further to state that papers and tonners have been purchased.

364 The coordinator requested for reports from sub-group 4 and the leader responded that they have  
365 made progress so far and that network delayed the submission. He also gave the excuse that  
366 although the group members are somehow old, they will surely submit their proposals in due

367 time. The coordinator stated that by next week, we should be collecting data and be ready to  
368 submit those papers to Scopus indexed journals.

369 Next on the Agenda was on the outcome of the SDG meeting with the vice chancellor and  
370 director, LUCRID. According to the coordinator, the University is ready to sponsor SDGs  
371 researches. Hence, the management requested between 5 and 10 research topics to DLUCRID.  
372 The coordinator then sought for advice on how to generate more topics. Consequently, it was  
373 suggested that since every group has been requested to work on at least 4 research topics, we  
374 only need to go to our archive and dig out topics to be worked upon. Summarily, since we have  
375 4 groups, each group was asked to bring at least 2 research topics which will be at least 8 topics  
376 to be submitted to DLUCRID.

377 The coordinator then encouraged group leaders to quickly summon urgent meetings for topics  
378 generation. Although group two had some topics on ground, they planned to present it in the  
379 next meeting. Group four requested for one or two weeks to bring their topics. The coordinator  
380 however stated that time is not on our side, rather, the topics should be ready as soon as  
381 possible. After thorough deliberations, it was agreed that each group should submit their topics  
382 on or before Thursday, 22nd October, 2020 and then continue with writing the proposal for the  
383 next two weeks.

384 The coordinator appreciated everyone for accepting the challenge and assure group members  
385 that we shall run with the vision.

386 **AOB**

387 For community development, once the University is ready to sponsor, we shall implement the  
388 proposal.

389 Next meeting comes up in 3 weeks' time.

390 **MOTION FOR ADJOURNMENT**

391 Dr. Adama moved the motion for adjournment while Mr. Olubukoye seconded the motion.

448 **MATTERS ARISING**

449 On reports from VC's meeting with the 17 SDGs, all SDGs were grouped into 4 and the one  
450 that concerns us as to do with Recreation Centre. Fortunately, majority of the SDG leader in  
451 the group (Recreation Centre) are still from this SDG. The coordinator said there will be a call  
452 to all the concerned SDG leaders.

453 Clarification on the THE ranking according to university ranking and SDG was deliberated and  
454 it was resolved that the VC/LUCRID will be in better position to clarify that.

455 It was suggested that external professional should certify the safety/security of the dam before  
456 any construction will take place.

457 On authors affiliations, it was emphasised that all authors, both individual and group, should  
458 henceforth bear two affiliations: Department and SDGs.

459 On the report from the group contributions. Each one contributed N2,500 and only three people  
460 are yet to pay.

461 The Financial manager stated that only subgroup one had printed their instruments. What  
462 remains is ₦31,500. When the instrument was given to the group, it was returned until when  
463 they will be ready to administer the instrument. Particularly, it was noted that the examination  
464 pressure caused the delay experienced.

465 The group one said their own instrument was ready but have not been submitted. The  
466 coordinator however encouraged the group to submit to appropriate quarter for onward  
467 processing.

468 It was noticed that Mr. Tunde had not been coming for the group meeting.

469 Group two also claimed that their quantitative instrument was ready, but remains minor  
470 correction on the qualitative instrument.

471 The coordinator encouraged all subgroups to submit all instruments to Mr. Oyeyipo. The  
472 Coordinator stated that all instruments must have been administered and returned before 12th  
473 February, 2021.

474 As we were discussing, Mr. Tunde entered and declared his intention to continue his  
475 membership of SDG 10.

476 Observation was raised on the group using Secondary School Students as their subjects. The  
477 Coordinator encouraged the group to ensure that their instruments is ready for distribution once  
478 the schools resume.

479 On the issue of Concept Note, the Coordinator encouraged everyone to do the needful. As a  
480 result, the coordinator appealed to every member of subgroup to briefly meet for maximum of  
481 30 minutes and come up with their concept notes for onward processing. After each group met,  
482 the coordinator appreciated everyone and requested every group to forward same to the  
483 Secretary's email for collation.

484 **MOTION FOR ADJOURNMENT**

485 Mr. Tunde moved the motion for adjournment while Dr. Mrs. Iwelumor seconded the motion.

486 **CLOSING**

487 The closing prayer was said by Dr. Mrs. Ake and the meeting ended at 1.17pm.

524 **MATTERS ARISING**

525 The coordinator briefed the meeting of the release of fund by the school towards the research  
526 of sub-group 1 and sub-group 4. She noted that the school released the sum of thirty-five  
527 thousand (₦35,000) naira against seventy thousand (₦70,000) naira submitted for group 1.  
528 Also, for group 4, the sum of forty-three thousand (₦43,000) naira was approved and released  
529 against ninety-three thousand (₦93,000) naira submitted.

530 On contribution, the coordinator encouraged members who were yet to fulfil their contribution  
531 to pay up promptly as the available fund would be used to finance the research of the other  
532 groups pending its approval and release of fund.

533 Members who were yet to tender their research instrument for printing were encouraged to  
534 finalise and send it to the secretary on or before Friday, 6th of June, 2021. Groups 1 and 4  
535 coordinators were directed to send in quotation for their group research latest on Wednesday,  
536 4th of June, 2021. This becomes important in achieving the desired goal of the institution and  
537 the school.

538 After deliberation, the meeting agreed to a fee of three thousand (₦3,000) naira as payment to  
539 research assistants employed for the research.

540 **AOB**

541 No AOB was discussed.

542 **CLOSING REMARKS**

543 The coordinator appreciated every member present for making out time out of their busy  
544 schedule to attend the meeting. She however, admonished that the timeline for the submission  
545 of instrument of data collection for the research groups be passionately adhered to.

593 **READING OF LAST MINUTES**

594 The secretary read the minutes of the last meeting held on the 17th July, 2020.

595 **ADOPTION OF LAST MINUTES**

596 Mr. Ahmed moved the motion for the adoption of last minutes, subject to minor corrections.

597 **MATTERS ARISING**

598 The first matter arising from the last minutes is how to populate our stand. It was noted that the  
599 SDG inauguration was imminent and therefore, there was need to populate our stand. In that  
600 line, some pictures (such as short and tall person, someone wearing rag and another wearing  
601 good cloth, someone wearing a very beautiful shoe and another wearing one 'god-help' shoe,  
602 a disable person, people living in slum, old women on the street, among others) were presented  
603 for further evaluation. Pictures of Orphanages were also suggested.

604 The second matter arising from the last minutes was the reports from the three sub-groups.  
605 Group two, represented by Mrs. Osueke, was called. The group mentioned the need to first  
606 create awareness at the community level through programme organisation. Second, the group  
607 saw the need to teach people how to manage their time. It is believed that by managing time,  
608 the vulnerable can be able to make money that will help in reducing inequality. Third, the group  
609 talked about skill acquisition such as how to make soap (both liquid and detergent), zobo, body  
610 cream, among others. In addition to entrepreneurial activities, group two members also  
611 highlighted some research topics that SDG 10 group can explore and these topics include:

612 ‘Assessment of government programmes (such as N-Power, Market women money, and trader  
613 money, among others) toward reducing inequalities’; ‘Coping strategies of street beggars  
614 during covid-19 total lockdown in Omu-Aran community’; and ‘Effects of Covid-19 on  
615 vulnerable groups: Toward realization or utopianization of SDG 10 in rural Nigeria’.

616 Group one, represented by Dr. Mrs. Dada, was called upon to present the outcome of its  
617 subgroup meeting. The group focused on the area of education, as members of the group saw  
618 education as a major factor in increasing or reducing inequality. If community members can be  
619 given proper education, the group maintained, inequalities will be reduced. The group went on  
620 to mention two research topics that could be conducted and these include: ‘Socio-demographic  
621 factors and parental involvement in educational activities of children in Omu-Aran  
622 community’; and ‘Home factors and economic performance of secondary school students’.

623 Group three, represented by Dr. Rasak, started by stating that cost was a major determinant in  
624 every decision taken. The group emphasised that the skill acquisition to be embarked upon  
625 must have very high patronage and the target could be unemployed youths. The group  
626 identified three possible skill acquisitions. One is **Catherine Services** and it was cost to be  
627 about one hundred and sixty-seven thousand naira (₦167,000). The second was soap making  
628 (costing ₦20,000 per person as a start-up capital for empowerment) and tie and dye. The group  
629 mentioned that raising capital for the participant is crucial at this time. Furthermore, the group  
630 highlighted two research topics to include: ‘Rural women empowerment, a panacea to poverty  
631 alleviation in Irepodun local government’; and Impact of market women money on poverty  
632 reduction and the challenges militating against the success of the programme’.

633 The third matter arising from the last minutes was how to populate our stand. The coordinator  
634 said pictorial image that depict inequality is expected from everyone.

#### 635 **COMMENTS ON THE REPORTS**

636 On awareness creation, it was deliberated that we need to examine those community issues that  
637 we may use to enter the community. Hence, the group that suggested this idea was saddled  
638 with the responsibility of knowing what the problems in the community are. Workshop to teach  
639 time management was considered appropriate, but linked with skill acquisition. Target group  
640 for skill acquisition were identified to be the vulnerable and how to get them was discussed  
641 such as in churches and mosques, as well as through community leaders. Lastly, Campus  
642 cleaners were identified as our first target. The following research **topics were agreed upon:**

- 643 1. Assessment of government programmes (such as N-Power, Market women money,  
644 and trader money, among others) toward reducing inequalities
- 645 2. Coping strategies of street beggars during covid-19 total lockdown in Omu-Aran  
646 community
- 647 3. Socio-demographic factors and parental involvement in educational activities of  
648 children in Omu-Aran community
- 649 4. Home factors and economic performance of secondary school students
- 650 5. Rural women empowerment: A panacea to reducing inequality in Irepodun local  
651 government’
- 652 6. Impact of market women money on poverty reduction and the challenges militating  
653 against the success of the programme’.

#### 654 **COMMITTEES ON ENTREPRENEURIAL ACTIVITIES**

655 In order to develop viable proposal for entrepreneurial activities particularly awareness  
656 creation, skill acquisition and educational development, it was resolved that three committees  
657 should be inaugurated comprising all members. The division of the SDG 10 group into  
658 committees is as follow:

659 **Awareness committee**

- 660 1. Dr. I. J. Adama – Lead
- 661 2. Mr. E. J. Eytayo
- 662 3. Dr. J. Olisa
- 663 4. Dr. F. Dada

664 **Skill acquisition**

- 665 1. Mrs. N. Osueke – Lead
- 666 2. Dr. B. Rasak
- 667 3. Mr. A. V. Ahmed
- 668 4. Dr. F. F. Asamu

669 **Education Committee**

- 670 1. Mr. S. E. Owolabi – Lead
- 671 2. Mr. T. Adebisi
- 672 3. Dr. M. B. Ake
- 673 4. Mr. I. A. Oyekola

674 **AOB**

675 Proposal development for the entrepreneurial activities was discussed and it was agreed that  
676 such proposals should be ready before two weeks. Hence, the SDG 10 group agreed to meet  
677 in two weeks' time, being Tuesday 11th August, 2020.

678 New members were attached to existing three groups. Mr. Adebisi, Dr. Olisa and Dr. Adama  
679 were attached to groups respectively.

680 **MOTION FOR ADJOURNMENT**

681 Mr. Owolabi moved the motion for adjournment while Dr. Adama seconded the motion.

682 **CLOSING**

683 Closing prayer was said by Mr. Adebisi and the meeting ended at 3:14pm.
