

SDG	MAJOR ACTIVITY									
1	<p>Created 3 Research Clusters:</p> <ol style="list-style-type: none"> 1. Entrepreneurship Development as an Alternative Paradigm to Poverty Reduction: 2. Grass-root Agricultural Funding as Panacea for Poverty Alleviation in Nigeria 3. Wealth Creation from Agro-Food Processing Waste 									
2	<p>Created 5 Research Cluster Areas:</p> <ol style="list-style-type: none"> 1. Agricultural Financing Mechanism towards zero hunger. 2. Empowering Youth in Agric-Business towards zero hunger. 3. Food Safety and Toxicology for Zero Hunger. 4. Agricultural Production and Processing Models towards zero hunger. 5. Farm Food Product and Value Addition towards Zero Hunger <p>Presentation “Dietary replacement of maize with Garri waste on the performance of two strains of laying hens.”</p>									
3	<p>4 Seminar Presentations</p> <ol style="list-style-type: none"> 1. Vocational and Financial Dimensions of health and wellness 2. Intellectual Dimension, Emotional Dimension and Spiritual dimensions of health and wellness. 3. Secrets to good health and well -being {Healthy Aging}. 4. Physical Dimensions of Health. 									
6	<p>3 Research concepts for development were raised.</p> <ol style="list-style-type: none"> 1. Determination of water quality index of groundwater or boreholes within and outside Landmark University. 2. Irrigation and drinking water quality index of Landmark reservoir/ lake with aquaculture in mind also. 3. Novel fecal waste management in Landmark University and its environs. 									
7	<p>5 Applied research-related activities towards the development of the energy sector</p> <ol style="list-style-type: none"> 1. Lack of research in innovative approaches on energy transformation (e.g. variable renewable energy development and integration); 2. Lack of research in smart grids and distributed power generation technology & modelling; 3. Planning and design of interfaces between large (backbone) grids, mini and nanogrids, with a focus on enhancing reliability and resilience of power systems; 4. Low cost technologies for rural electrification. 									
8	<p>Screening of Research proposals from 4 Group members:</p> <ol style="list-style-type: none"> 1. Creative Climate Dimensions in the workplace 2. Employee empowerment and organizational goal achievement: Evidence from the Nigerian manufacturing industry/ sector 3. Impact of interest rate on economic growth in developing & developed countries 4. Nexus between financial inclusion and covid-19 palliative: lesson for the future. 									
9	<p>From the presentation of Prof. Owa entitled, “Applied and Translational Research”, 8 potential products were highlighted for Processing</p> <table border="0"> <tr> <td>1. Corn silk tea</td> <td>2. Landmark Olive Tea</td> <td>3. Landmark Iru (Condiment)</td> </tr> <tr> <td>4. Landmark Ogiri</td> <td>5. Landmark Probiotics</td> <td>6. 4. Landmark Ogiri	5. Landmark Probiotics	6. Landmark Tuwo Shinkafa								
7. Landmark Fortified Gari	8. Landmark Colostrum									
10	<p>Research focus in two dimensions:</p> <ol style="list-style-type: none"> 1. Research: that will whip up vital policies in the realization of a reduction in inequalities in our society. 2. Entrepreneurship programmes: To reach out to our immediate communities through entrepreneurship programmes that will ensure that victims of inequalities 									

	<p>are not left behind; through skill acquisitions, awareness campaign, workshops, educational videos and outreaches</p> <p>Creation of Community oriented research topics:</p> <ol style="list-style-type: none"> 1. Parental and Related Factors as Correlate of Academic Performance of Secondary School Students in Omu-Aran Community, Kwara State, Nigeria 2. Coping strategies of street beggars during COVID 19 pandemic. 3. Rural Women Empowerment as a panacea to poverty alleviation: 4. Unequal access to federal government recruitment programme in Kwara state. <p>Research Proposal submitted to LUCRID Office</p>
11	<p>Creation of Research Clusters</p> <ol style="list-style-type: none"> 1. Pet bottles recycling 2. Bamboo Research 3. Rain Water Harvesting <p>Projects</p> <ol style="list-style-type: none"> 1. Foot Mat made from Waste Pet Bottle 2. Bamboo Particle Board <p>Preparation of Review Article to be published in SCOPUS Journal</p>
13	<p>Cluster Group commenced research activities</p> <ol style="list-style-type: none"> 1. Mathematical modelling of carbon emission and its effect on economic growth.
15	<p>Identification of the Group's main goals:</p> <ul style="list-style-type: none"> • Protect, restore and promote sustainable use of terrestrial ecosystem; • Sustainable way of managing forests through combat desertification; halt and reverse land degradation; halt biodiversity loss. <p>Group Research Focus:</p> <ol style="list-style-type: none"> 1. The land resources which includes land, plants, animals, etc. 2. Sustainable ways of managing the life of resources against extinction <p>3 Research Clusters created:</p> <ol style="list-style-type: none"> 1. Sustainability of land resources 2. Reclamation of degrading/degraded land and its resources 3. Dissemination of valuable information to the end users of land
16	<p>Group objectives identified:</p> <ol style="list-style-type: none"> 1. Promoting peaceful and inclusive societies for sustainable development; 2. Providing access to justice for all; and 3. Building effective, accountable and inclusive institutions at all levels. <p>Group's research activities structured</p> <ol style="list-style-type: none"> 1. <i>SDG-16 Nigeria</i> 2. <i>SDG-16 Africa</i> 3. <i>SDG-16 Global</i> <p>Tools of community engagement identified for implementation:</p> <ol style="list-style-type: none"> 1. Solemn March/Campaign: 2. Sensitisation Programmes on critical issues that are core to SDG-16 targets: 3. Courtesy Visits:
